## Legionella Training Course

The Health & Safety Executives Approved Code of Practice and Guidance L8 –Legionnaires Disease "The control of Legionella bacteria in water systems details the levels of competence required to undertake risk assessments and for those appointed to carry out control measures. Broadland Group Limited is hosting Legionella Awareness Training courses to detailing the factors that increase the risk and effective control measures to minimise the potential risk.

### NEW DATES NOW AVAILABLE

As a special offer if you book two delegate places on one of our courses you can send a third delegate absolutely **FREE**.

**Legionella Training** - The need for Awareness of Legionella and the potentially deadly effects of Legionnaires' disease has grown rapidly in recent years. With major outbreaks and high profile prosecutions under the Health & Safety at Work Act it's now more important than ever that organisations and individuals understand their legal duties and the serious consequences of a failure to comply with the law.

The course is aimed at all staff involved in water management and maintenance of the control procedures. It covers the legislation, compliance with legislation, health effects, what is Legionella and risk factors, responsibilities, practical approach to risk minimisation and record keeping.
